Heart Health Solutions from Henry Schein

Finger on the Pulse–Physicians who monitor their patients for cardiac wellness are especially aware of the factors that contribute to heart health. Effective diagnosis enables better disease management and also paves the way to methods of intervention and treatment that are preventive, often adding to a patient's quality of life and longevity.

At Henry Schein Medical, we support your efforts in working toward maintaining good health in your patients by providing you with the products and services that enhance your clinical capabilities and reinforce your role as dedicated caregiver.

We offer a wide variety of diagnostics and pharmaceuticals for cholesterol, hypertension, and diabetes management as well as small equipment to make in-office testing easier and faster. You'll also find a complete array of accessories from gloves to paper products, all value-priced to help you stay within budget while keeping your patients on the road to better health.

MEDICAL TIP

National Cost of Cardiovascular Disease
In 2010, heart disease will cost the United States $316.4 billion. This total includes the cost of health care services, medications and lost productivity. Source: CDC

Henry Schein Brand–Depend On Us

Look for the Henry Schein Seal of Excellence and our "life preserver" icon to identify Henry Schein Brand products that are exceptional in quality and reasonably priced. From exam room supplies, and gloves to diagnostic instruments and testing materials, you'll find diverse products that support you in achieving greater patient satisfaction, enhanced productivity and increased value for your practice. ***Satisfaction guaranteed!***

March is Colorectal Cancer Awareness Month

Excluding skin cancers, colorectal cancer is the third most common cancer diagnosed in both men and women in the United States.

The death rate from colorectal cancer has been dropping for more than 20 years. There are a number of likely reasons for this. One is that polyps are being found by screening and removed before they can develop into cancers. Screening also allows more colorectal cancers to be found earlier, when the disease is easier to cure.

American Cancer Society recommendations for colorectal cancer early detection–

Beginning at age 50, both men and women at average risk for developing colorectal cancer should use one of the screening tests below:

Tests that find polyps and cancer

- Flexible sigmoidoscopy every 5 years*
- Colonoscopy every 10 years
- Double-contrast barium enema every 5 years*
- CT colonography (virtual colonoscopy) every 5 years*

Tests that mainly find cancer

- Fecal occult blood test (FOBT) every year*,**
- Fecal immunochemical test (FIT) every year*,**
- Stool DNA test (sDNA), interval uncertain*

**Colonoscopy should be done if test results are positive.*

***For FOBT or FIT used as a screening test, the take-home multiple sample method should be used. An FOBT or FIT done during a digital rectal exam in the doctor's office is not adequate for screening.*

Committed to the Health of Your Practice...

Trusted Advisor
Our knowledgeable Sales Consultants offer you the utmost attention and are specially trained to help identify ways to enhance your practice.

Price Integrity
We are highly competitive with our pricing. We strive to maintain prices, develop purchasing plans, and deliver the best value for your practice.

Guaranteed Fast Delivery
Orders received by 5pm local time are shipped the same day. Your products arrive within 24–48 hours in most areas.

Vaccine, Pharmaceutical & Diagnostic Solutions
We have relationships with major manufacturers and can supply a full line of adult and pediatric vaccines.

In addition, we can provide all of your flu vaccine needs with our Worry-Free Guarantee Flu Program!

Our pharmaceutical and diagnostic solutions include brand names as well as a complete line of generics and Henry Schein Brand options for added value.

Practice Solutions
We provide a complete array of services, from technology solutions to practice marketing, that are designed to help you achieve your practice goals.

We do that!™

MEDICAL TIP

Early Action is Key for Screening of Heart Disease

About 47% of sudden cardiac deaths occur outside a hospital. This suggests that many people with heart disease don't act on early warning signs. Source: CDC

MEDICAL TIP

Early Action and Diagnosis is Key: Women's Heart Health

Almost two-thirds of the women who die suddenly of coronary heart disease have no previous symptoms. Source: CDC

Roche

CoaguChek XS® System

PT/INR Monitoring Solution

The next generation in point-of-care prothrombotin (PT) and international normalized ratio (INR) testing, this new system uses exclusive smart technology to help ensure accurate results and offers the flexibility and control that healthcare professionals need to confidently manage a wide range of anticoagulated patients. It is the only system to perform onboard quality control and determine patient results in a single test chamber.

- CLIA waived
- Neutralizes therapeutic levels of heparin and LMWH
- INR corrected for hematocrit within specified range; manage a broad array of patients with a single device
- Small sample size (10 µL) for easy dosing
- Strip allows dosing from either top or side for simple blood application
- Small, battery-powered, handheld meter for portability and efficiency
- New onboard controls; no external QC necessary
- Auto-on with strip insertion and auto-off capabilities
- 18-month strip shelf life; no refrigeration needed

BIOSITE
NEW DIMENSIONS IN DIAGNOSIS

Triage® MeterPro™ Meter

High-performance, comprehensive cardiovascular and drugs-of-abuse testing in the laboratory or at the point of care (POC). Designed to provide diagnostic results quickly and easily. Quantitative diagnostic panel results are displayed and printed in easy-to-read numbers and highlighted when the result is above the cutoff. Qualitative diagnostic panel results are displayed as positive (POS) or negative (NEG), eliminating the need for interpretation of lines that often hamper qualitative diagnostics.

#55070MP
(704-8205).....ea

#52031, Paper for Triage Meter and MeterPro

(706-7343) 25/box

CHOLESTECH

Cholestech LDX® System

Complete Lipid Profile, Glucose

Lab-accurate lipid profile, glucose, ALT, AST, and hs-CRP results in about 5 minutes* from a simple fingerstick. Allows provider to get results while patient is still in office—provider can counsel and intervene face-to-face. This improves patient compliance and increases control and management of heart disease and diabetes. Reimbursable by Medicare and most private payers.

- CLIA waived**
- Procedure saves time and enhances productivity
- Small, tough, and portable
- Eliminates anxiety of venipuncture; requires only a fingerstick
- On-the-spot adjustment of therapy and improved patient compliance
- Accuracy comparable to laboratory tests
- Saves time: fewer follow-up visits required
- Enhances compliance through teachable moments between healthcare providers and patients

CPT® Code for lipid profile: #80061QW†; for lipid profile/glucose: 80061QW†/839471QW†; for ALT/AST: 84460QW†

*6-minute results for hs-CRP.
**Except hs-CRP.

#10-959, Analyzer
(738-2917) .....ea

The perfect pair for testing diabetic patients.

HbA1c and Microalbumin are both available for point-of-care (POC) testing.

Answers for life.

The perfect pair (HbA1c & Microalbumin for POC testing):

- Perform quantitative urine microalbumin, creatinine, and albumin-to-creatinine ratio tests, and CLIA-waived HbA1c for managing diabetes on one analyzer: the DCA Vantage® analyzer
- The DCA Vantage analyzer has over 15 years of proven performance in the point-of-care (PoC) testing segment and over 100 peer reviewed articles to provide confidence in test results
- As another option, the CLINITEK Status® analyzer can provide a CLIA-waived, semi-quantitative urine microalbumin, creatinine, and albumin-to-creatinine ratio result, in about a minute
- You can use both the DCA Vantage and the CLINITEK Status analyzers in CLIA-waived offices for monitoring the HbA1c and microalbumin levels of patients with diabetes, as recommended by the ADA

DCD7189	CONTOUR® Blood Glucose Monitoring System, each

simplewins™ | Bayer HealthCare Diabetes Care

Bayer HealthCare

Bayer's CONTOUR® Blood Glucose Meter

Cleared for multiple site testing, which means more choice and flexibility about where you test: finger, forearm, palm, abdomen, or thigh—it's up to you. However, be sure to talk with your healthcare professional first to ensure that alternate site testing is right for you.

- No coding required
- Automatic underfill detection
- Automatic control marking
- Automatic temperature control
- Small sample size (0.6 µL)
- Quick testing time–results in 15 seconds
- Saves information for up to 240 tests with time and date

MEDICAL TIP

Diabetes and Cardiovascular Risk

73% of adults with diabetes have blood pressure greater than or equal to 130/80 mmHg. The risk of stroke is two to four times higher among diabetics than non-diabetics.

Flu Prevention

The CDC states that frequent hand washing dramatically reduces the risk of contracting the influenza virus. Source: CDC

HealthLink® A Family of Medical Products

ProSpore™

Safe, easy way to process self-contained biological indicator for validating and monitoring steam sterilization of liquids. Consists of a sealed glass ampule containing *Bacillus stearothermophilus* spores, suspended in growth media. A pH indicator of bromocresol purple has been added to assist in detecting spore growth. The outgrowth of spores decreases pH, causing a color change from purple to yellow. Shorter incubation period allows a validated 48-hour result. Glass ampule for steam sterilization of liquids.

(674-8524).....10/box

HealthLink® A Family of Medical Products

ProSpore2™ Starter Kit

Biological Indicating Monitoring Kit
For steam sterilization.

Contains: 1 monitoring log book, 1 incubator with vial crusher, 50 ProSpore2 tubes & 2 rolls of autoclave tape.

HealthLink® A Family of Medical Products

ProSpore2™

Ideal for in-office validation and monitoring of steam sterilizers and has the same ease of use and indications as ProSpore™. Consists of 1 paper disc carrier containing *Bacillus stearothermophilus* spores. Disc is enclosed in a plastic tube along with a glass vial containing media for growing bacterial spores. Bromocresol purple has been added to assist in detecting spore growth. Outgrowth of spores decreases pH, causing a color change from purple to yellow. Shorter incubation period allows a validated 24-hour result. Plastic ampule for steam sterilization.

Kimberly-Clark Professional

SCOTT® Slimroll Hard Roll Towel Dispenser

The SCOTT Slimroll Hard Roll Towel System lets you use a roll towel dispenser in places you didn't think was possible, like right next to the sink, or at a nurses' station where you've never been able to fit a roll towel dispenser before.

- Nearly 50% smaller than standard Sanitouch® dispensers
- Small footprint and reduced depth allow mounting in tight places
- Dries more hands in less space
- Higher capacity than folded towel dispensers for less waste and maintenance
- Towels are FSC Certified and exceed EPA minimums for post-consumer waste content

Handwashing is a good thing. Dial Complete® makes it the BEST thing.

DIAL COMPLETE® = BEST GERM KILL

Dial Complete® Antimicrobial Foaming Soap EXCEEDS the performance criteria defined in the 1994 FDA Tentative Final Monograph. **Dial Complete® Activated Triclosan™** soap outperforms other triclosan, PCMX, and CHG soaps, yet is over 25% milder than others.[2]

[1] A cup scrub modification of ASTM E1174 hand wash method, with 20 second handwashes and Serratia marcescens ATCC 14756 marker organism.

[2] Based on clinical studies against leading professional antibacterial hand soaps. Visit our web site for further information.

Dramatization only: Number of dots shown does not correspond to actual number of bacteria.

RETHINK THE CLINICAL SPACE.

Healthcare and its delivery systems are changing. As we look to the future, there is much to consider in facility design, access, control, comfort, workflow and the caregiver-patient relationship. Growth and change are inevitable – healthcare environments must be flexible to adapt to the integration of new technologies and healthcare protocols.

Midmark can help.

MidmarkClinicalSolutions.com

For more information, contact your Henry Schein Representative, call 1-800-MIDMARK or visit midmark.com.

MIDMARK®
Because we care.

THE NEXT GENERATION OF VITAL SIGNS MONITORS IS HERE.

Introducing the Connex® Vital Signs Monitor 6000 Series

Simplicity
- Large full-color touchscreen that's easy to operate
- For continuous monitoring and spot checking applications
- Reduces required training from standardization of staff procedures on one device

Industry-leading parameters
- 15-second SureBP® NIBP
- Optional SureTemp® Plus or Braun ThermoScan® PRO 4000 thermometry
- Optional Masimo® or Nellcor® pulse oximetry (SpO_2)

Patient monitoring the way it's needed
- Blood pressure intervals can be set for predefined or customized cycle times
- Alarm controls are displayed on the home screen and easily accessed for immediate control

Get Connected
- Connectivity-ready, allowing you to integrate with the EHR system you have now or one you will get in the future

Improved Battery Life
- Operate from an AC outlet or a high-performance lithium-ion battery
- 100% recharged in only four hours
- No significant loss of recharge capacity with normal use

Ideal for:

Ambulatory Care Clinics
Cancer and Oncology Clinics
Community Health Centers
Endoscopy Clinics
Multi-Specialty Centers
Outpatient Surgery Centers

For more information on the Welch Allyn Connex Vital Signs Monitor, please contact your local Henry Schein representative.

SureTemp® Plus 690 Electronic Thermometer

Combines the speed of ear thermometry with the accuracy and reliability of traditional oral thermometry. Takes fast, 4–6-second oral temperatures, 10-second pediatric axillary and rectal temperatures, and 15-second adult axillary temperatures.

- Accurate to within +/- 0.2°F (0.1°C)
- Interchangeable, removable probe wells to reduce the risk of cross contamination
- Large LCD that can display temperatures in Fahrenheit or Celsius
- Last-temperature recall
- Mode selection and recall buttons
- Four different temperature modes
- Convenient storage for 25 probe covers
- Takes about 6,000 readings on 3 AA batteries (included)

3M™

Nexcare™ Active™ Bandages
Flexible Foam, Strips and Spots
Designed for patients with active lifestyles. Unique foam stretches, flexes, and conforms, even around fingers, knuckles, knees, and elbows, as you move. Advanced, water-resistant adhesive is strong enough to stay put, even to damp and sweaty skin—ideal for strenuous play and work. Soft, absorbent pad won't stick to wounds. Adhesive seals around pad to keep dirt and contaminants out.

BD Disposal Solutions

Promotion for Henry Schein Customers

SPECIAL PRICING ON BD RECYKLEEN™ CABINETS

During the months of January 1, 2011 through March 31, 2011.

Call your Henry Schein Sales Consultant for details.

BD Recykleen™ Cabinets

BD Recykleen Cabinets are available in both brown and green semi-transparent colors.

305096

305098

Key product features

- A universal lock providing security and preventing unwanted access to collectors
- A one-piece transparent door facilitating easy cleaning
- The ability to clearly see the collector fill level indication
- A two-year warranty providing product replacement in case of manufacturer defects

BD Recykleen™ Cabinets

Ref#	Product Size	Henry Schein Item #
305096	5.4 qt BD Recykleen Brown Cabinet	**987-0191**
305098	5.4 qt BD Recykleen Green Cabinet	**987-0190**

HENRY SCHEIN®

BUY 3, GET 1 FREE

On BD Recykleen 5.4 Qt Collectors during the months of January 1, 2011 through March 31, 2011.

BD Recykleen™ Collectors

BD Patient Room Collectors are available in BD Recykleen and come in two colors. All BD Patient Room Collectors have visible fill level indicators and handles for safe transportation.

305056

305057

Key product features

- Compatible with locking cabinets to provide security and prevent unwanted access to collector contents
- Counterbalanced door facilitates hands-free disposal and is designed to reduce the potential of sharps injuries
- Designed to improve tamper resistance by preventing hand access to the contents

BD Recykleen™ Collectors

Ref#	Product Size	Henry Schein Item #

Elemano™

Portable Blood Pressure and Pulse Monitor with PrecisePulse™ Technology

The ***only*** professional-grade blood pressure device on the market that offers gold standard accuracy and **PrecisePulse**™ technology right in the palm of your hand.

- Simultaneous BP and Pulse readout in only 30 seconds!
- Gold Standard accuracy to within 3mmHg, but mercury-free
- No stethoscope required! Built-in PrecisePulse™ Technology provides clearer distinctions of K-sounds than conventional auditory means.
- Compact, portable, and lightweight at only 10 ounces!
- Rugged and durable in drop test studies* with no calibration EVER required.

For more information, contact your Henry Schein Representative.

Henry Schein Rx Samples Service

Our Rx Samples Service is free, secure, and easy

Order pharmaceutical samples online—
easily and conveniently.

Sponsored by leading pharmaceutical companies—with no cost to you. Sampling enables you to:

- Initiate patient treatment faster
- Increase patient compliance
- Provide valuable information about patient response to a new Rx regimen
- Increase patient satisfaction; patients appreciate the convenience, ease, and thoughtfulness of samples

Check your eligibility today!
Go to www.henryscheinrxsamples.com, sign up and in a few minutes you can start ordering samples:

- Access to leading brands not currently available to you today
- Easy to use; 3 minutes to register, 2 minutes to reorder
- Order multiple brands from different manufacturers from one central location

We do that!™

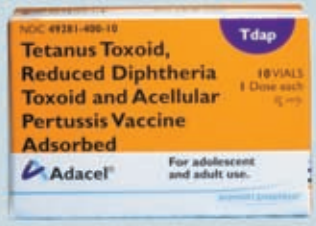
Despite high rates of reported pertussis in a recent decade, **vaccination** rates remain low.

The ACIP recommends Tdap vaccination for adults and adolescents, including healthcare providers



Tdap
Tetanus Toxoid, Reduced Diphtheria Toxoid and Acellular Pertussis Vaccine Adsorbed
Adacel®
For adolescent and adult use.

- Adults 19–64 years of age should receive a single dose of the Tdap booster, especially adults who have or anticipate close contact with infants <12 months of age
  — When possible, women should receive Tdap before becoming pregnant
- Adolescents 11–18 years of age should receive the Tdap booster, with the preferred age of vaccination at the 11–12 year visit
- Health-care providers in hospitals or ambulatory-care settings who have direct patient contact should receive a single dose of Tdap
- Tdap is preferred to Td for tetanus prophylaxis in wound management Source: www.cdc.gov

703 Digital Column Scale

High-Capacity Digital Column Scale

With very high capacity and BMI function. Extremely robust, precise, and stable: with a capacity of 550 lb, a large but low platform and the integrated BMI function, this column scale has the prerequisites for the diagnosis and therapy of heavyweight patients. The energy-saving battery operation—up to 16,000 weighings with just one set of batteries—means that this scale can be used anywhere, as it is not dependent on AC power.

- Includes seca 220 measuring rod
- Capacity 550 lb/250 kg
- Graduation 0.2 lb/100 g
- Functions TARE, HOLD, BMI, kg/lb/sts switch over
- Transport casters
- Optional adapter set RS 232 seca 460

(600-5578) .....ea

Health o meter Professional

Eye-Level Digital Scale with Height Rod

High weighing capacity, low profile, large base, and user-friendly interface.

- Capacity: 500 lb x 0.2 lb (227 kg x 0.1 kg)
- 170° swivel display with 1 LCD
- BMI, RS232 port, wheels, handle, large 14¼" x 14¼" platform, and height rod
- 1-year limited warranty

Aaron 1250™
Electrosurgical Generator

Multipurpose machine for use in the modern physician's office and surgicenter. It features both monopolar and bipolar functions to satisfy all surgical demands with safety, flexibility, reliability, and convenience. Also features Cut, Blend, Coagulation, Fulguration, and Bipolar modes. Incorporates automatic safety features such as self-test circuits, audible tones, discreet outputs, isolated circuitry, and Bovie NEM™ (neutral electrode monitoring) and has 120 W of cutting power and 90 W of blended cutting. It has 2 levels of Coagulation: Pinpoint (maximum power: 80 W) and Fulguration (maximum power: 40 W), plus Bipolar (maximum power: 30 W).

- 120 W of cutting power and 90 W of blended cutting
- Two levels of Coagulation: Pinpoint at 60 W and Fulguration at 40 W
- 30 W of Bipolar
- Rotary power control dials for ease of use
- BovieNEM™ pad sensing technology
- Digital error detection
- Accepts standard 3-pin connector pencils

(413-1384) .....ea

Disposable Electrodes
All use standard 3⁄32" (2.3 mm) stainless steel shaft. All molded electrodes feature safety grip insulators that combine patient and user safety with easy insertion into and removal from surgical pencil. Packaged individually.

#A804, Sharp Dermal Tip, Non-sterile

A Cool Way to Remove Common Warts & Benign Lesions

Histofreezer® Portable Cryosurgical System[1]

NO HAZMAT FEE

- Clinically proven, safe and easy-to-use
- Results are comparable to Liquid Nitrogen
- Histofreezer is patient friendly with a low risk of pain and scarring
- Application takes 40 seconds or less
- Does not require a Freeze-Thaw-Freeze procedure
- Does not require the use of messy and leaky cones, unlike other cryosurgical products
- Requires no bulky equipment or initial capital investment, unlike Liquid Nitrogen
- Histofreezer is CFC-Free and ozone-friendly
- Economically priced and reimbursable
- **NO HAZMAT FEE** + All Inclusive Kits = Greater ROI

Wart Removal, Easy as 1-2-3*

1. CHARGE **2.** INVERT **3.** APPLY

HISTOFREEZER — CLINICALLY PROVEN, SAFE AND EASY-TO-USE

Portable Cryosurgical System

Integra™ Miltex®
CryoSolutions™

INTEGRA™
LIMIT UNCERTAINTY

A New CryoSurgery Solution

Integra MiltexCryoSolutions™ is an innovative yet simple device for delivery of high performance liquefied Nitrous Oxide which allows the clinician to pinpoint the treatment site for rapid freezing and efficacious destruction of unwanted tissue.

This convenient, in-office treatment utilizes the recognized cryogenic advantage of Liquefied Nitrous Oxide (not a chemical agent). This treatment is appropriate for either benign or malignant lesions due to the effectively low and destructive temperature delivered to the treatment site.

Features	Benefits
Narrow, lightweight control mechanism	Fits comfortably in physician's hand
Multiple tips, sizes and lengths	Fulfills the physician's need for individual patient indications
Glass tips	Can be sterilized
Maintains -127°F controlled dispensing temperature	Controlled dispensing temperature reduces treatment time and patient discomfort

INTEGRA™
LIMIT UNCERTAINTY

Times Change.

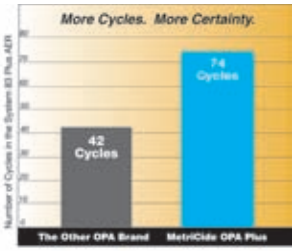
So Do Standards.

Upgrade to MetriCide® OPA Plus: We've Raised the Bar on High Level Disinfection.

With an advanced ortho-Phthalaldehyde (OPA) formula, MetriCide OPA Plus remains effective for 40% more reprocessing cycles than the other OPA brand. You'll feel secure knowing that a slight increase in strength makes a big difference in performance—without decreasing materials compatibility or safety.

One Source—Complete Solution

Metrex offers you the convenience of a fully integrated line of instrument reprocessing solutions, including our leading enzymatic/detergent cleaners: EmPower® and MetriZyme®.



MetriCide OPA Plus outperformed the other OPA brand in a reuse stability study, performing 32 more reprocessing cycles when used in an automated endoscopic reprocessor.*

Order your copy of the comparison study by calling 800.841.1428 or download it at metrex.com/upgrade.

WOUND CLOSURE EVOLVED

Secure. Fast. Effective.

V-Loc™ 180 Absorbable Wound Closure Device

Coming Soon…

the **V-Loc™ 90 Absorbable Wound Closure Device,*** the latest addition to our family of knotless wound closure devices.

* Pending 510(k) clearance by the FDA and CE mark approval.

1 Time Motion Study – Comparison of wound closure time using conventional techniques and knotless, self anchoring surgical sutures in ex-vivo porcine model for both single layer and double layer closure in all closure techniques. Royal College of Surgeons, London, UK; Covidien V-Loc™ 180 Absorbable Wound Closure Device Time Study, Robert T. Grant, MD, MSc, FACS, New York-Presbyterian Hospital, Argent Global Services.

2 Utilization of a Porcine Model to Demonstrate the Efficacy of an Absorbable Barbed Suture for Dermal Closure, UTSW, S. Brown

Please refer to the package insert for complete instructions, indications, contraindications, warnings and precautions.

COVIDIEN, COVIDIEN with logo, Covidien logo and *positive results for life* are U.S. and/or internationally registered trademarks of Covidien AG. Other ™ marked brands are trademarks of a Covidien company. © 2010 Covidien.

The V-Loc™ 180 device is a revolutionary technology that supports optimal patient outcomes by closing wounds securely without the need to tie knots.

- Distributes tension throughout the wound
- Closes wounds up to 50% faster[1,2]
- Has the potential to reduce knot-related complications

This changes everything.
And you don't have to change anything.

COVIDIEN
positive results for life™

It's all about protection.

3 tools that address the risk factors associated with injuries and infections.

1 Plus SUTURES®
Antibacterial Sutures

Kill bacteria on the suture[1,2]

- Proven in vitro, Plus SUTURES create a zone of inhibition around the suture against the most common surgical site pathogens[2,3,4,5]:
  - *Staphylococcus aureus*
  - *Staphylococcus epidermidis*
  - Methicillin-resistant *Staphylococcus aureus* (MRSA)
  - Methicillin-resistant *Staphylococcus epidermidis* (MRSE)
  - *Escherichia coli**
  - *Klebsiella pneumoniae**

*Effective on MONOCRYL Plus and PDS Plus

2 ETHIGUARD®
Blunt Point Needle

Lowers risk of needlestick injury

- ETHIGUARD Blunt Point Needle is proven to be effective and user-friendly[6]
- Especially suitable for fascia and muscle layer

3 DERMABOND®
Topical Skin Adhesive

Provides a proven microbial barrier[7]

- Fast, painless solution for topical wound closures
- Provides needle-free skin closure

3M™ Scotchcast™ Plus Casting Tape
4-yd Rolls
Water-activated resin lets you control working time according to application needs. Combines the benefits of a fiberglass casting tape with the handling ease of plaster. High/early strength allows for weight bearing in 20 minutes and provides a durable cast with less chance of breakdown and the need for costly repairs or replacements. Stretches to conform well to contours for a more comfortable, better-fitting cast. Porous weave allows skin to breathe.

- Water-activated resin
- High and early strength
- Lightweight for easy mobility
- Conforms well to contours
